Yaacov Mettoudi

Experienced, positive, and responsible software tester with highly developed self-learning abilities and a strong work ethic. Eager and motivated to learn, invest, and commit for the long term. Quick to adapt and integrate, excellent team player, outstanding interpersonal skills, and always with a smile. Capable of performing tasks under pressure.

Personal website development using HTML, CSS: Link: MyWebsite

Execution of a STR project on the "Burgers Bar" website within one week, reporting 28 bugs, and performing 60 tests. Link to STR project: [Burgers Bar STR Web](Burgers%20Bar%20STR%20Web)

Education :

Graduated of the QA formation program at the College of Automation (Gal Matalon) -- http://www.automation.co.il

During the training program, I acquired practical knowledge and hands-on experience in the following areas:

- Constructing comprehensive test scripts, including detailed writing of STR, STD, and STP.
- Executing Mobile and Web projects.
- SQL (queries up to JOIN level).
- Working with APIs (Postman, JSON, XML).
- Experience with CSS and HTML, including the use of tools such as WebDriver and DevTools.
- Running tests on various products and applications (Android & IOS), across leading browsers in the market (Chrome, Firefox, Edge, Safari).
- Practical experience in test processes, including test management using TestRail and bug reporting in Jira.
- A deep understanding of testing methodologies and work processes (Waterfall, Agile), along with hands-on experience in various types of testing (Regression, UI, Sanity, End2End, and more).
- Self-learning in basic areas like Java, Networks, VirtualBox, VmWare, Linux, Shopify, Wordpress.
- Proficiency in three languages at a very high level (Hebrew, English, French).

Preparation for mathematics and physics + one year of software engineering studies at Afeka Academic College in Tel Aviv (www.afeka.ac.il). During my studies, the following subjects were covered:

- Calculus 1-2, Linear Algebra, Digital Systems, Programming, Physics 1.
- Additionally, software-related topics like Java and Introduction to Object-Oriented Programming were also part of the curriculum.

After a year of preparatory studies and a year of software engineering studies, I decided to advance in the field of software testing.

Work Experience:

2021-2023 - Sales Manager at Bimap, a company specializing in providing architects, engineers, and interior designers with Revit software. I extensively worked with various CRM systems, reported bugs, enhanced the website design, improved the user experience, engaged in marketing, managed a team of 2 sales representatives, and increased sales by 112% in the first year of work. Website: www.bimap.co.il.

2017-2021 - Sales Representative and later Sales and Database Development Manager at BaitShely. I established a database of information about Jewish homeowners worldwide interested in hosting kosher accommodations for Jewish travelers through platforms like Airbnb. The work involved computer-based tasks, experience with CRM systems, payment systems, Office tools, and continuous customer interaction.

Military Service: Infantry soldier in the Golan Brigade, Golani Division.
